

# Getting Started - Initial Thoughts on 3D Printing

Post by "Cassius" of April 28, 2021 at 4:37 PM

That site looks like a great find - thank you:

1 - I wish there were a Herculaneum leaping pig there, but I can't find anything.

2 - That [Epicurus bust](#) looks like it SHOULD be useful, but it looks like the "original" from which it was scanned doesn't really look like Epicurus.
