

Where Is Epicurus In The "School of Athens"?

Post by "Cassius" of May 23, 2021 at 3:18 PM

I would expect that most discussion will continue to take place in this thread and I am not specifically encouraging new posts in the new threads. However it's already almost impossible to read through this thread given its length, so I'm giving the option to future posters to write their new comments on particular figures where they may more easily be found.
