

Episode Seventy-Two - Alternative Explanations in Science, and The Size of The Sun

Post by "Cassius" of May 26, 2021 at 9:38 PM

Episode 72 of the Lucretius Today Podcast is now available. In this Episode 72 we will read approximately Latin line 509-613 of Book Five. We will talk about the location of the Earth within our "world," and well discuss Epicurus' perspective on science for the sake of science and the size of the sun and moon. As always, please let us know any comments or questions in the thread below:
