

# How To Help The Forum - Start New Threads!

**Post by "RogerAlyn" of July 14, 2018 at 4:28 PM**

I'm posting this question here because I can't figure out how to do it anywhere else on the site.

How do I post to a current forum/thread?

I don't want to create a whole new thread just to ask a question but I see no obvious way to ask a new question (like this) in the General focum.

Thanks
