

Isonomia

Post by “Mathitis Kipouros” of August 17, 2021 at 11:23 PM

Wikipedia doesn't seem to help much:

Isonomia (ἰσονομία "equality of [political rights](#),"^{[1][2]} from the Greek ἴσος *isos*, "equal," and νόμος *nomos*, "usage, custom, law,"^[1]) was a word used by [ancient Greek](#) writers such as [Herodotus](#)^[3] and [Thucydides](#)^[4] to refer to some kind of popular government. It was subsequently eclipsed until brought back into English as **isonomy** ("[equality of law](#)").
