

Happy Twentieth of August 2018!

Oh my gosh the 20th is almost over here in my time zone and I haven't issued a "Happy 20th" myself here at Facebook or [Epicureanfriends.com](https://www.epicureanfriends.com), or seen anyone else do so! 1f609.png 🤔

Life come at you hard sometimes with so many distractions, but I am in my eighth+ year of hard-core Epicurean studying, and I can say without reservation that it has changed my life for your time with Epicurus does as much for you as it has for me. Happy or forget what Epicurus, Metrodorus, and Hermarchus did for all of us!
