

Propositional Logic, Truth Tables, and Epicurus' Objection to "Dialectic"

Post by "Martin" of September 22, 2021 at 2:18 PM

On dialogical logic

C. F. v. Weizsaecker's uses dialogical logic to justify usage of statements on the past in logical arguments in the book which I mentioned as reference in comment #10. (That justification does not work for statements on the future.)
