

A Five Star Presentation of Epicurus

Post by "Cassius" of October 28, 2018 at 5:55 PM

I think it's important that we begin to present Epicurean philosophy through podcasts and other audio-video means, so as a test I put together this basic presentation. I haven't edited the sound and this includes all the unprofessional "uhs" that come with someone who has no podcasting experience. Despite that, however, I think this presentation might be useful, so I am making it available here. The slide presentation itself can be found and downloaded at <https://www.epicureanfriends.com/fivestars> -- it is in the free Libreoffice Impress format and you are welcome to reuse and modify it. Thanks for your time in watching.
