

## **7 Gamelion (Mon., 10 Jan): Happy Birthday, Epicurus!**

**Post by “Cassius” of January 7, 2022 at 5:30 AM**

THANK YOU for the reminder. The floating nature of the birthday over what seems to be an unnaturally-extended period always makes this hard to remember. I think we have a post or a thread about this calculation and we need to highlight it every year as the date approaches. If someone finds it before I do please post in this thread and we'll add to the front page notices.
