Still, I think that Christianity didn't really destroy Epicureanism... well, it did, but it also took some of the things out of this great philosophy and incorporated it into its own world view. The community of friends...

I can hear [Don](#) thinking "this guy is the reincarnation of Norman deWitt!" Kind of an inside joke but can't resist making it. Smoothkiwi as you read DeWitt's books (specifically including "[St Paul and Epicurus](#)") you will see he is fond - perhaps too fond 😊 of drawing analogies to Christianity. I think many of them are valid, but some of them you'll probably agree are stretched. In general though his points are probably good points of connection for Christian readers.
