

# Talking About Epicurus With Someone Who Is A Stoic (Or Of Some Other Anti-Epicurean Philosophy)

**Post by "Cassius" of January 7, 2022 at 6:37 PM**

I absolutely agree. And it isn't really a function of "skepticism" -- because I think the evidence is clear that Epicurus was against radical skepticism, and DeWitt will speak to you on that.

The question really comes down to, in a real sense, "What evidence or argument am I willing to consider to be true?"

And although we don't have nearly as much text left on that issue as we would like, I think what we do have is pretty clear and helpful about the direction Epicurus was going in his work on "canonics."
