

Dance and it's place in Epicureanism?

i see that googling brings up a lot of references to Aristippus and the Cyreniacs, such as this one:

<https://epicureanism.wordpress.com/category/pleasure/>

It is possible i may be confusing the two, but I really thought that I had read commentators say that Epicurus had endorsed this notion, and that either in Herodotus and/or Lucretius there was evidence of pleasure being referenced as atoms moving with smoothness vs roughness.

I better back off for the moment as I cannot confirm, but I suspect we'll eventually find something.
