

Personal Epicurean Knowledge Base Using Text (Markdown) Files

Post by “Godfrey” of January 13, 2022 at 1:47 AM

How would one go about learning to use these? Start with Markup and then move on to Obsidian and/or Logseq? Or is Markup a part of Obsidian and Logseq so that you can just pick one of the two of them to learn and still have the functionality of Markup?

Are these set up for non-techie users or is some knowledge of programming required? The last programming I did was with punch cards 😊
