

PD10 - Interpretations of PD 10 Discussion

Elli your post references the "manifold way" and that reminds me that we have a significantly different group of people active now as opposed when we had past discussions about that - and some of those discussions were possibly on facebook.

Do you recall if you had an article or reference point that we could point out to people now who might not be familiar with what you mean by that term? Was there a Dimitri Atlas article or something you wrote that summarized the point?
