[Elayne](#) I don't know what city you're in, but feel free to post info on this meeting at the EP group (you can even create an event there for it), and let people know what city you're in. It's possible there are members of the EP group who are not far from you.

AND if I can be of any use re: sources or writings, let me know. I facilitated meetups some years back, but only got up to three people.
