[Quote from Matt](#)

But regardless a unified teaching curriculum would be needed to be the source for all the branches of the Garden.

Yes I agree. We can't wait until all 38 (or is it 37) books are reconstructed, we have to start with the outline basics and get things going, then fill in the details over time. I don't see any evidence that Epicurus waited until all or most of his books were written before he started organizing.
