

# Happy Birthday EricR!

Thanks so much for the kind BD greetings! As I am the worst Epicurean on the planet, I am especially humbled to be the first BD entry! Why the worst? Because I still seriously entertain foundational metaphysical principles that are incompatible with the Epicurean view.

But I am touched to be remembered on my BD. 😊

To your question, Scott, I am in Canada! Hence Cassius' remark about the frozen north. 100% accurate. 😄
