(I should have known Don was going to go straight for the "images" material!) 😊

😊 Just taking On Nature books in order.

I do find it interesting that Epicurus was covering images so early in his masterwork. He must have either seen it as important (like the gods being first in Menoikeus and the PDs) or fundamental to his physics.

I'm just ecstatic that the translation app worked as well as it did! Some clean up needed but overall 👍
