

Nate's "Allegory of the Oasis" Graphic

Post by "Matt" of December 21, 2018 at 9:44 AM

Or even consider using an image of early man Cro Magnon or another homonid.

It would serve two purposes, one to help a person identify with a similar being and two to serve as a Visual representation of evolution. Early man making a choice to either go to the idealist philosophers or to the materialist ones.

Just a thought.
