

Happy Birthday General Thread

Post by "Cassius" of February 10, 2022 at 9:21 AM

This thread will contain system-generated Happy Birthday messages.

I think it probably makes sense to encourage users to use their Timelines to post just a little info about themselves, so rather than set up separate threads for each user, or post those greetings in this thread, let's allow the system to notify us of new birthdays in this thread, and then place greetings on the user timeline.
