

Episode One Hundred Eighteen - Letter to Herodotus 07 - "Images" - There's More To Them Than Meets The Eye

Post by "Cassius" of April 21, 2022 at 6:39 PM

Added thought:. I wonder if one of the analogies here too is a parallel between what we presume must be nerve impulses traveling within our body and at least some of these images.

I am not even sure what we think of these today:. Are they electrical impulses? Chemicals?

Another question might be whether these impulses are "analog" vs "digital" -. I presume analog is more likely? "Analog" would probably have more similarities to "images" retaining their "shape."
