

Nate's "Allegory of the Oasis" Graphic

Post by "Cassius" of January 7, 2019 at 1:31 PM

Nate I see the title "Allegory of the Oasis" is still there.... which is fine....I wonder if some other general label or box might still serve to tie the whole thing together and explain the scenario --- for example box 1 starts with "We" -- who is "we" and how might it be conveyed to the viewer what role the viewer should assume in reading through the progression?
