Thanks for this, [Don](#) ! The Eames's are legends in the Los Angeles design community. I had the pleasure of growing up in a house full of Eames furniture. While enjoying a museum exhibit on the Case Study houses a couple of decades ago, I was surprised to discover that an old family friend was the architect who stamped the drawings for their iconic house in the Pacific Palisades. Their old studio in Venice was something of a landmark, although I'm not aware of its current state.
