

Neuroscience of Happiness and Pleasure -- Morten L. Kringelbach and Kent C. Berridge

Post by "Kalosyni" of June 27, 2022 at 8:53 PM

"All pleasures seem to involve the same hedonic brain systems" -- that would support PD 9.

Ha, I didn't get to the end of that article yet to see if it says anything about importance of meaning (but "Divine fire" would probably fall into that category). 😊
