

Other Epicureans: Dante Alighieri's Friend and Late Foe - Cavalcante de' Cavalcanti & Manente Degli Uberti

Post by "Cassius" of July 11, 2022 at 8:30 PM

Wow thanks for that Nate!

"appear to have been accused of Epicureanism or of the denial of personal immortality during their lives and, by extension, of irreligion and a sceptical attitude towards Christian revelation."

It's interesting to me that they were focusing well on core issues that are in fact core, rather than arguing about things like gluttony vs asceticism which are almost side issues, but which seem to consume all the attention today.
