I dunno, I think a good metaphor is going to be extensible to cover the closely related issue of "What about variation?"

Okay, I'll give you that, but I don't like the idea of the spilling over as variation. It seems... messy.

I could see if the glass is tipped or jostled and there's spillage, that makes sense that the mind is still troubled and anxious. It's not steady.

But a variation analogy? I'm going to have to ponder that.
