

Debate Arising from James Webb Space Telescope

Post by “Don” of August 25, 2022 at 8:52 AM

Yes, I'd like to hear from Martin. I get the impression it's not really much of a debate within the scientific community. This article seems to be more a sensational journalistic angle. Plus the article's author is an anti-big bang proponent to begin with. It's not like the JWST data revealed the big bang didn't happen. The researcher could be cherry picking.
