

Social Media - Facebook

I just checked FB and it says the EP page there has 3.9 thousand "members." Of course that is not realistic as to who sees the posts, but it is still a significant number. I need to look up how many "members" we have had here over time, but I doubt that we have more than a hundred (and probably less) people who regularly check in - even lurkers included.

The forum software says we had 1022 "visits" today, which would include lurking non-members, but I have no idea what that really means and surely the serious readership is less than that..
