

Diving Deep Into The History of The Tetrpharmakon / Tetrpharmakos

Post by “Godfrey” of February 2, 2019 at 4:53 PM

I've got the impression that the school of EP is considered to have followed Epicurus's thinking unusually closely through the centuries. But this topic is interesting in that it may be an example of a bit of variation in the doctrine and the potential ramifications of that, which I think Cassius is doing a good service to explore. Given the fragmentary remains of the documentation, it's great to see accessible studies of what exists and how it might fit together.
