

Epicurean substitute for prayer

I suppose I am the only one for whom the tune in the video below came to mind when I saw the title of the new Emily Austin book "Living For Pleasure." 😊 (maybe not the best example of the song but it has the words)

If we could convince Nate or someone else musically talented (Kalosyni? Others?) to come up with some better words then we might have something to accompany the thoughts in this thread about a "prayer" 😊
