

Epicurus' Birthday 2023 - (The Most Comprehensive Picture Yet!)

Post by “Kalosyni” of November 26, 2022 at 11:31 AM

Actually, it just came to me that would be really nice to have a panel presentation by various people, just short segments where everyone explains a little about special projects:

Nate -- the compilation, etc/birthday calculations

Don -- on the Letter to Menoecus translation/Wise man sayings

Cassius -- explaining about the forum, it's development and how it functions as well as the hopes for developing the Epicurus College

It could be just voice only, and then we post it onto Youtube. (just an idea)
