

Epicurus' Birthday 2023 - (The Most Comprehensive Picture Yet!)

Post by "Eikadistes" of November 27, 2022 at 8:25 PM

[Quote from Cassius](#)

That should take care of our needs and we can leave for further discussion the burning question of whether our birth sign friends would consider Epicurus to have been a Capricorn, Aquarius, or Pisces!

I've been thinking, it's like expressing today as "the evening of **Sagittarius the 6th, Super Bowl 61.**"

.. and, for the record, all dates in Aquarius correspond with the range of possible dates for Gamelion Eikas. 😊
