

# General Thread on Dimitri Liantinis

**Post by “Cassius” of December 2, 2022 at 10:20 AM**

The subject of Dimitri Liantinis came to mind today and it looks like some time ago I set up this sub-forum, but never really collected any material in it.

I have mentioned his work "Rome and The Stoa" a number of times, but we don't have any of it translated other than what Elli prepared in the two graphics attached to this message.

We also have this "Article" I prepared some years ago as review of "Gemma" - the only one of Liantinis' books which has been translated into English: [A Link From Ancient to Modern Greece - Liantinis' "Gemma"](#)

At some point in the future Liantinis' writings would be a good subject of discussion, but it probably will have to wait until we have more translated into English.
