If that link works, it will take you to a .png file on my google drive that is an export of a drawio flow chart on epistemology. I'm finding the task to be a bit overwhelming, but it might prove interesting.

I've only covered sensation so far, and have barely scratched the surface there. I have some ideas where to go with feelings, but it's all quite vague in my mind at the moment.

Prolepsis/Anticipations/Preconceptions remain completely obscure to me. I just don't understand them very well. I'm hoping this will give me a framework from which to approach the upcoming chapters in DeWitt, because this is a serious weak point of mine.
