

Episode 154 - "Epicurus And His Philosophy" Part 10 - The Canon, Reason, and Nature 01

Post by "Todd" of December 29, 2022 at 10:49 AM

In what way are the sense experiences of a person under the influence of psychedelics "true"?

I can only make sense of "[all sensations are true](#)," as meaning "all sensations are experienced," or, "all sensations are sensed."

If by "true", you mean, "corresponding to reality", I would have to say that statement is false.

How would you respond?
