

Episode 155 - "Epicurus And His Philosophy" Part 11 - The Canon, Reason, and Nature 02

Post by "Don" of January 2, 2023 at 7:18 PM

That's an excellent exposition above, [Joshua](#) . I like the idea of canon = test.

If I may, I'd like to expand on that even to say that, to me, the canon is a standard by which other things can be tested. The senses are part of the canon in that we can use them as a standard against which to test reality. Or am I stretching that metaphor too far?
