

Modern Research Into Physiology Issues Relevant to Epicurus's Views of Images and Other Influences On the Human Mind

Post by “Don” of January 14, 2023 at 10:18 AM

[Quote from Todd](#)

Not to sound like a skeptic, but to me, this kind of thing is a reminder of how much we really don't know - even in areas that we tend to assume modern science has pretty well figured out.

That sounds like withholding judgement until more evidence of available... Very Epicurean 😊
