I read that New York Times article and what kept running through my head was...

Quote from Inigo Montoya

You keep using that word. I do not think it means what you think it means.

It seems to me they're using "anxiety" to mean several different things because the word attracts attention. "Anxiety is good" is better than a nuanced approach to the research and findings. I certainly wouldn't use "anxiety" to describe the several different emotions they're discussing.
