

"Next Big Idea" Podcast Interviews Emily Austin

Post by "Cassius" of January 26, 2023 at 7:54 PM

This book and this writer in her interviews is conducting the most aggressive and rigorously pro-Epicurean and non-Stoic campaign in public in a very long time. This is all very interesting and welcome.

The idea of her saying good things about Epicurus but also bad things about the Stoics at the same time is probably blowing the minds of 80% of these podcast audiences!
