

As To The Three Legs Of The Canon (Sensations, Feelings, Anticipations) Is it Possible to Experience (Receive Data?) From One Without The Others?

I agree with your last comment Don. I think "happy" has become so ambiguous that it needs a lot of caution and description of how we are using it. Pleasure is much more clear, but as a word it too could be taken out of context by the word-splitters.

Maybe what we are looking for is a description of all these things using words that are resistant to splitting 😊
