ΕΥΔΑΙΜΟΝΙΑ (Eudaimonia and related terms. There are not as many variants of eudaimonia as ataraxia, but all present will be accounted for in this entry)

From εὐδαίμων (eudaímōn, "fortunate") + -ίᾱ (-íā, "feminine abstract substantive"); eu "good/well" + daimon "in-dwelling spirit; daemon". While δαίμων was sometimes used interchangeably with θεός (theós), when used together in a context, a δαίμων is usually a lower god than a θεός (theós).

NOTE: This is a placeholder entry for occurrences of eudaimonia in the texts ... more to come.
