Apologies for the long introduction and again I'm grateful for what all of you do here and the knowledge you impart to continue the Epicurean tradition. Thanks!

Thank you! for the heartfelt introduction to yourself and your path. That is an excellent and eloquent first post. No apologies necessary at all for the length! 😊 I enjoyed reading it, and you'll find a number of us here with similar backstories.

Welcome to our little virtual Garden! Salve! Χαίρε!
