OK ok I had to look it up: anyone who writes "quotidian" rather than "everyday" or "commonplace" has some interpretive issues of his own to sort out! 😊 It's almost as if that note were written by two separate people.

quotidian 
kwō-tid'ē-ən

adjective

1. Everyday; commonplace.
2. Recurring daily. Used especially of attacks of malaria.

The part I struck out in red represents everything wrong in modern Epicurean commentary.
