Hi Cassius,

I am a regular and eclectic reader who had reference to Epicurus and his relationship with hedonism.

Reading Montaigne's essays and later on the Stoics, I was interested in knowing more about Epicurus' philosophy.

Searching for the original sources I have had the great luck to find this real jewel that has made me "fall in love" with Epicurus. I see that many of my great vital references have their origin in him, what a great discovery.

Thank you very much for this effort, it is a pity that his wisdom has faded so much in 2000 years. Let's see if in the next 2000 we can revitalize it.

My pleasure.
