

VS78 - Alternative Translation

Post by "Cassius" of July 4, 2023 at 10:53 AM

Admin Note:

Because I am a fast learner (sarcasm) it has taken me only eight years to discover that the forum software allows footnoting in "Lexicon" entries, but not in normal pages or posts. I am therefore converting the master copies of our [Principal Doctrines](#) and Vatican Sayings to Lexicon entries, and the top menu (under texts) now takes you to those locations. No doubt there are other links here on the forum to the existing pages, so I will leave the old ones in place (at least for a while) while we convert links.

I will substitute this version of VS78 for the ones we are discussing in the master list, and also in our separate forum for VS78, and I will move this thread to that location if it is not already there. [Oops it is there - good planning by Onenski!]
