

# Embodied Cognitive Science

**Post by “HsiehKW” of July 22, 2023 at 5:46 AM**

Hi! The internet went down yesterday. Still down today. Something wrong with the entire area. Anyways, here's the GDrive folder, as promised:  
[https://drive.google.com/drive/folders/...\\_89WSTI9mo9fxoE](https://drive.google.com/drive/folders/..._89WSTI9mo9fxoE)

I'll update it from time to time. For now, I've included:

1. Handbook Cognitive Science: An Embodied Approach

...and influential Ecological Psychology and Enactivist books. These embodied approaches are, roughly, the two main strands of embodied cognitive science. They are, however, tensions between these approaches as well. Getting them to work together is something that a good number of researchers are trying to do.

2. Mind in Life by Evan Thompson, 2007 (Enactivist)

3. Direct Perception by Claire F. Michaels & Claudia Carello, 1981 (Ecological Psychology)

P.S. There are a lot of annotations there. So, they're kind of colorful.
