

Joyful

Post by “Godfrey” of August 17, 2023 at 9:05 PM

I enjoyed her book and have been following her blog for a couple of years now. Highly recommended! I've posted here once or twice on her work; a search should turn up the posts.

Her take on things often seems to be Epicurean. I don't know that it is, but it is science based. Which, come to think of it, is Epicurean.
