

Gassendi's English Version of Life of Epicurus - Thomas Stanley Edition

Post by “Cassius” of August 30, 2023 at 7:14 AM

Scanning over this again you have to hand it to Gassendi for what seems like bringing together every surviving source (by no means just Laertius) in compiling the work. Lots of references to the Suidas which we rarely hear spoken of, but which seems to contain a lot, and that would be another source that would be good to investigate further.
