

# Italian Artwork With Representtions of Epicurus

**Post by "Cassius" of March 30, 2019 at 7:55 PM**

Note that in both of these Epicurus is associated with a jar of some kind. Could that be a reference to the "full jar" analogy that we know of at least from Lucretius book 6 and other places?

Michele can you help us with other details and potential symbolism of these two paintings?
