

The dangers of dialectical logic

Post by “Pacatus” of November 19, 2023 at 2:51 PM

[Quote from Eoghan Gardiner](#)

I am wondering what exactly do we mean by logic,

Just thinking ...

The above is a valid deductive inference (syllogism) because the conclusion follows necessarily from the premises. But it only becomes true if, in fact, there was a man named Socrates.

I'm not sure how much the ancients knew of inductive logic?
